

STOCK EXCHANGE EXCITES MARKET

Edge Taken Off Movement by Setback to Sugar, Copper and Coal.

PROFIT TAKING GENERAL

The Result Was Widespread, Showing of Losses at the Last.

(By Associated Press.) NEW YORK, Nov. 18.—There was an excited flurry during the first hour of today's stock market, principally due to the continuance of the wild movement in sugar and Amalgamated copper, with which last night's market closed. But the edge was taken off the movement by the successive setbacks to sugar's efforts to get up by the release in Amalgamated Copper and Tennessee Coal to a point under last night and by the yielding of Union Pacific to the extent of a point. As the stocks formed the main force of yesterday's late advance their exhaustion had a strong sympathetic effect on the general market. The day's news of actual conditions was not unsatisfactory. The engagement of \$20,000,000 additional gold for Paris to-morrow and the promise of a reflection in to-morrow's bank statement of the heavy withdrawal of gold for export were without influence, as money on call was easy and banks which held out for the 2-1/2 per cent. rate had difficulty in placing all of their available funds. But the pressure to take profits was persistent in the market and carried over into yesterday's trading. The result was a general showing of losses at the last, even in stocks that had been strong.

Market closed weak on an active selling movement. Bond were active and irregular, total par value \$10,000,000. United States Bonds were unchanged on call; total sales \$1,500,000.
